Manga of a true story

**Humans were
created
scientifically**

The message from the creators

Since long ago, extraterrestrials
living on another planet
have been visiting our Earth

Just as we call ourselves
"human beings",
they are "Elohim"

"Elohim", in Hebrew, means
"those who came from sky"

For a long time, this word has been
wrongly translated as "God"

On Dec 13th 1973, Rael, who was then a sports car journalist, met an "extraterrestrial Elohim" named "Yahweh" at the Puy de Lassolas Volcano near Clermont Ferrand in France.

From very far away.

Oh no, I have been here very often.

Yahweh

Where do you come from ?

Rael

Is this the first time you have visited the Earth ?

I have chosen you
for a very difficult
mission.

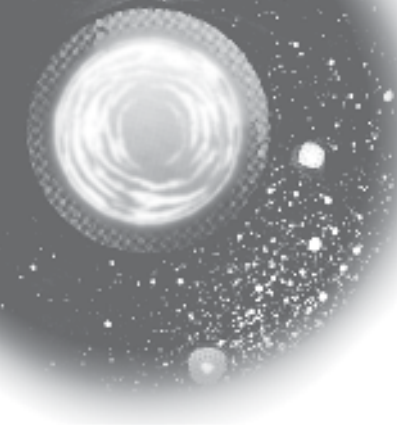

I brought you here to give you
a "Message of Truth" about
the origins of human kind, its
present and future.

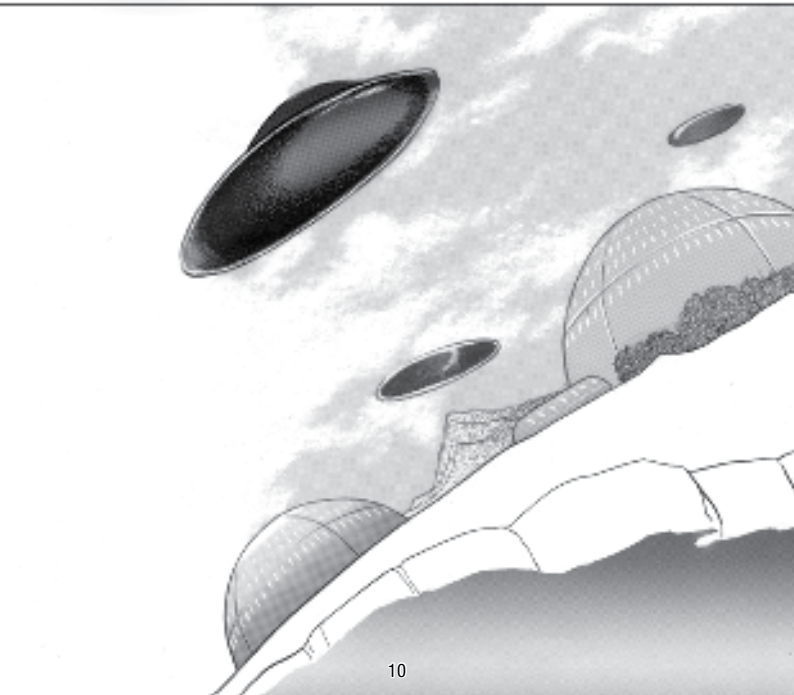

25 000 years ago, on our distant planet, we had
reached a level of scientific knowledge, comparable to
that which you will soon reach.

Our scientists perfected their techniques, and tried to
create more advanced forms of life, they searched for
a planet that was suitable to carry out their projects.

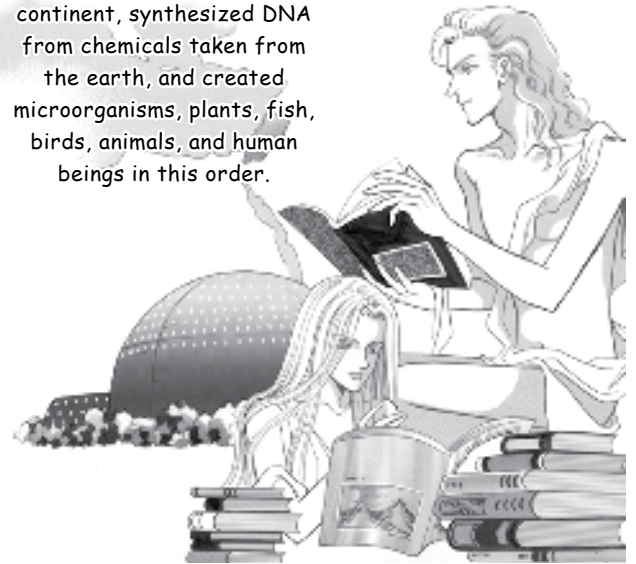

Then finally, they discovered the Earth.

The Earth at that time was entirely covered with water and thick fog. So then, we raised matter from the bottom of the seas and piled it to form a gigantic continent in order to create life.

We placed 7 research teams and laboratories on different areas of the continent, synthesized DNA from chemicals taken from the earth, and created microorganisms, plants, fish, birds, animals, and human beings in this order.

The team located in the country you now call Israel created animals that were the most beautiful, their plants had the sweetest perfumes, the human beings they created were the most intelligent.

The government from their distant planet had been watching the creation experiments, and feared that the abilities of the human beings they created might be above their own. They decided to destroy all life on Earth by sending nuclear missiles.

The scientists however, when informed of the project, asked one of the men from Earth, "Noah", to build a three-story rocket which would evacuate the Earth and contain the DNA of a pair of each species to be preserved.

let's escape!

Then, after scientifically dispersing the radioactivity caused by the nuclear explosions, the scientists recreated human beings, animals, plants, etc. on Earth.

"Prophet" means "one who reveals the truth".

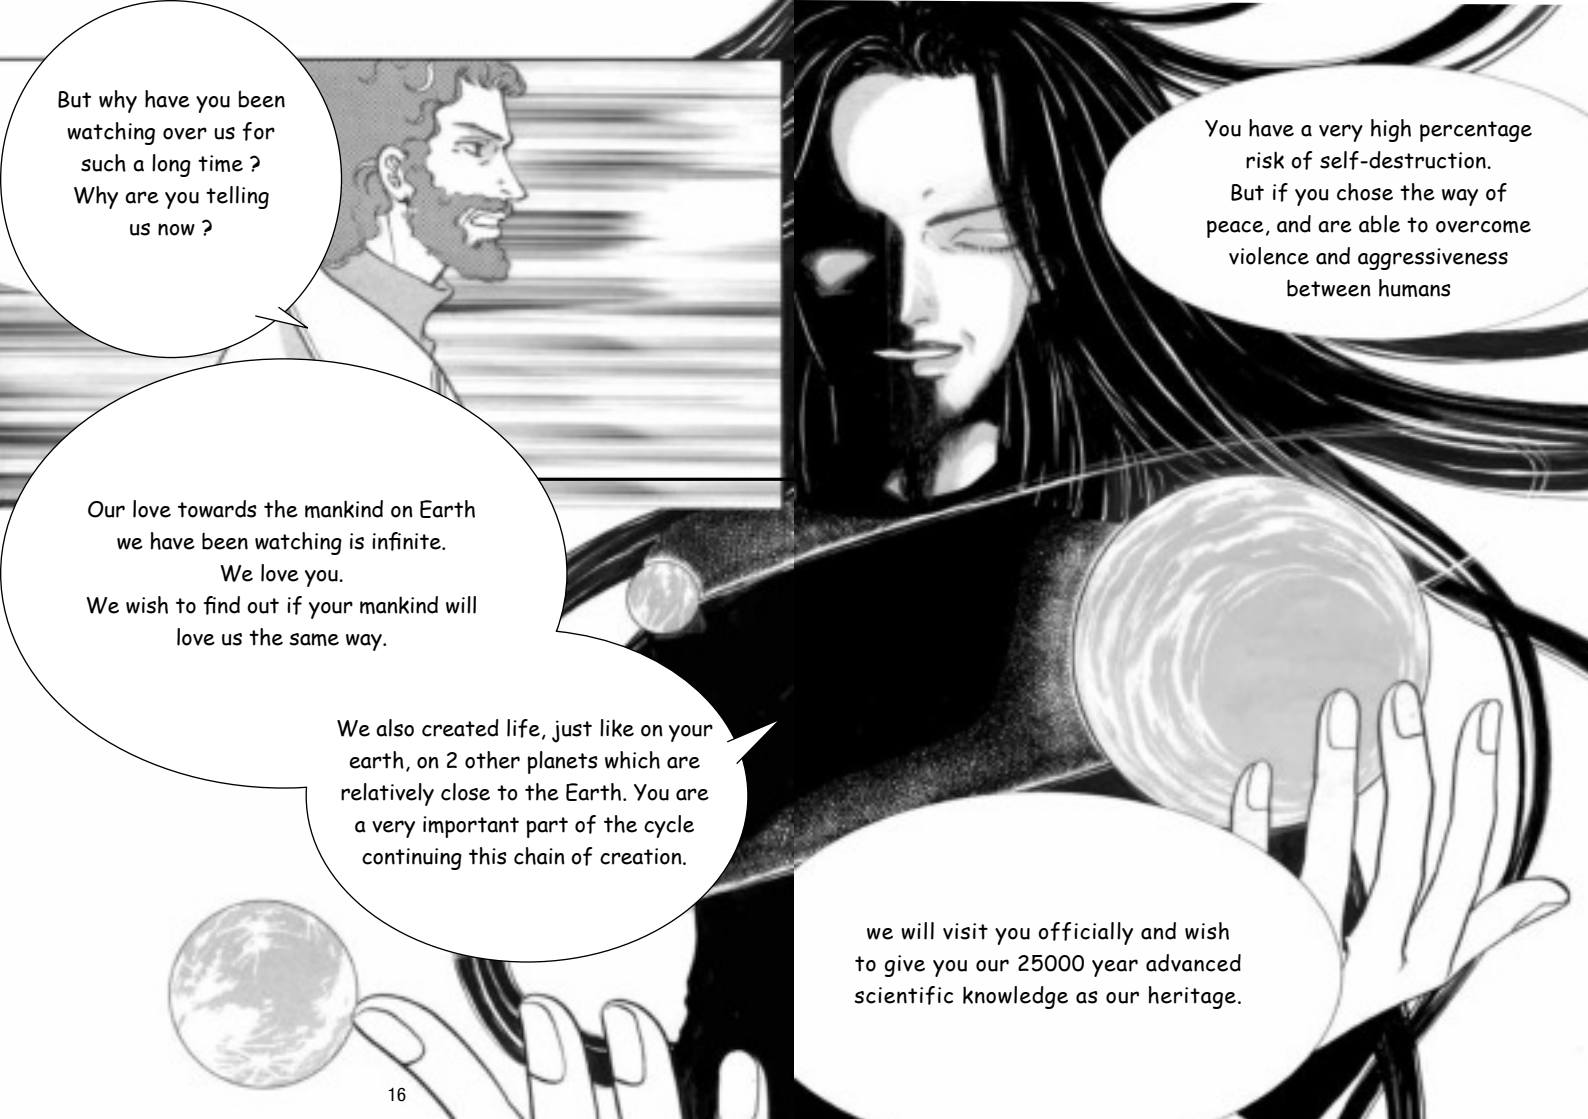

We sent different "Prophets" in each important period of your history, in order to leave proofs for future humans on Earth, so that when their level of science and technology will have progressed high enough, they will be able to "understand".

Some "Prophets" were Moses, Buddha, Mohamed, etc...

The mission of Jesus was to spread the truth about the origin of mankind on Earth before the time of the "Apocalypse".

"Apocalypse", from the Greek word "Revelation", means "The time when you can understand everything thanks to science".

But why have you been
watching over us for
such a long time ?
Why are you telling
us now ?

Our love towards the mankind on Earth
we have been watching is infinite.
We love you.
We wish to find out if your mankind will
love us the same way.

We also created life, just like on your
earth, on 2 other planets which are
relatively close to the Earth. You are
a very important part of the cycle
continuing this chain of creation.

You have a very high percentage
risk of self-destruction.
But if you chose the way of
peace, and are able to overcome
violence and aggressiveness
between humans

we will visit you officially and wish
to give you our 25000 year advanced
scientific knowledge as our heritage.

You should get rid of all mysticism immediately.

For example, when Moses separated the waters of the red sea with his cane in order to help the people of Israel escape from Egypt, in fact, it was repulsion rays beamed from our spaceship that created the path on the ocean floor. That was purely scientific.

yeah~

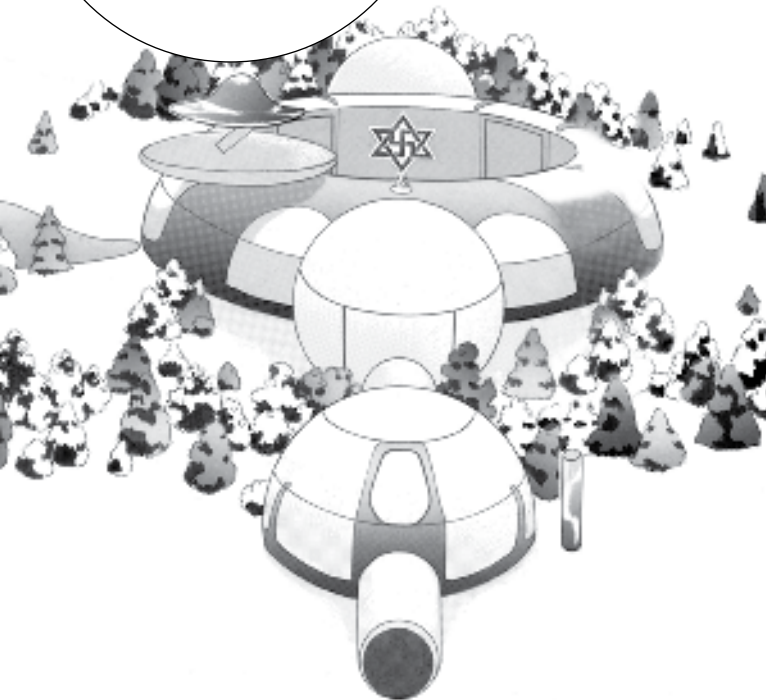

SPLUSH!

wow...a

oh ðh

hum ?

If you wish to welcome us,
please build an embassy on
Earth to receive us officially.

Q & A

We have met on 6
consecutive days,
but did you always
go back each time
to your own planet ?

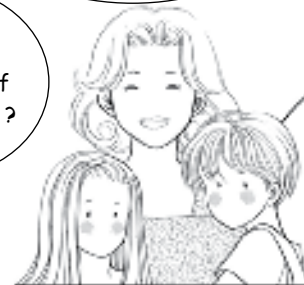

No, I returned to an
intergalactic ship, which
we use as a base and
which stays constantly
close to the Earth.

Are nuclear
bombs a danger
for mankind ?

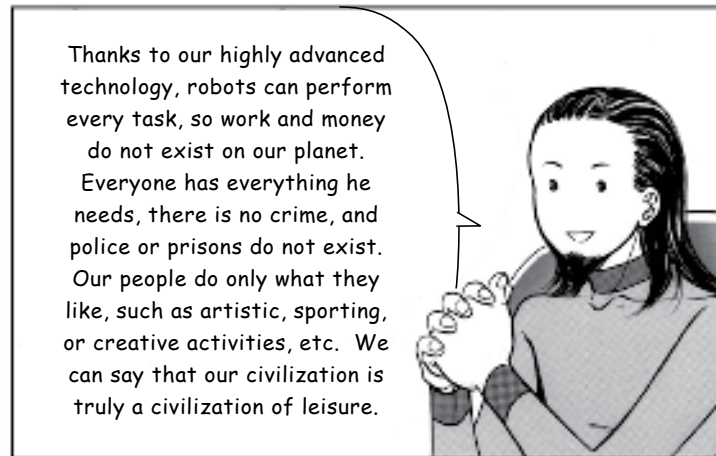

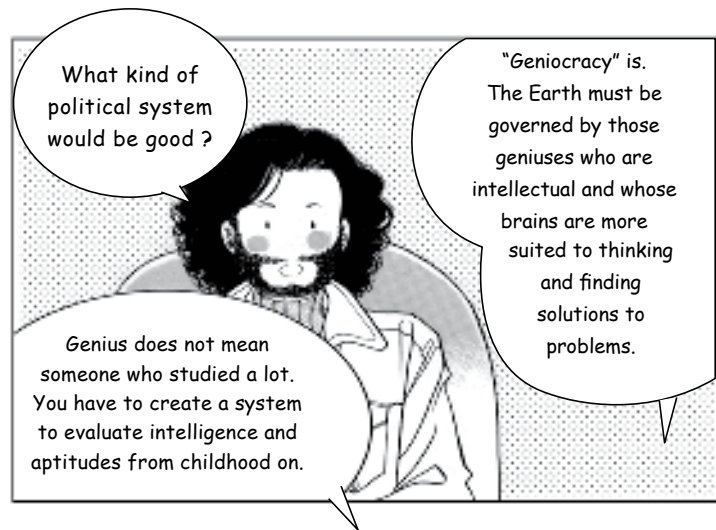

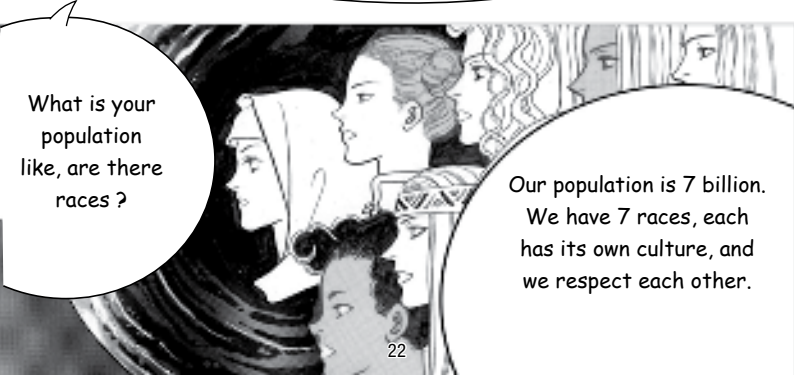

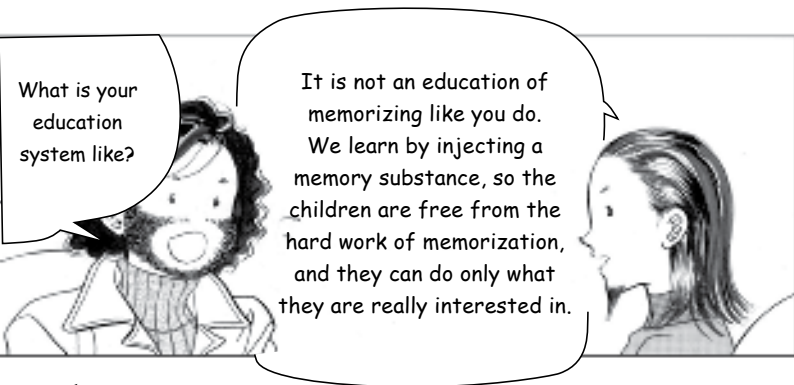

Yes, very dangerous !
First, mankind on Earth
has to get rid of nuclear
weapons as well as of
the military who create
wars.

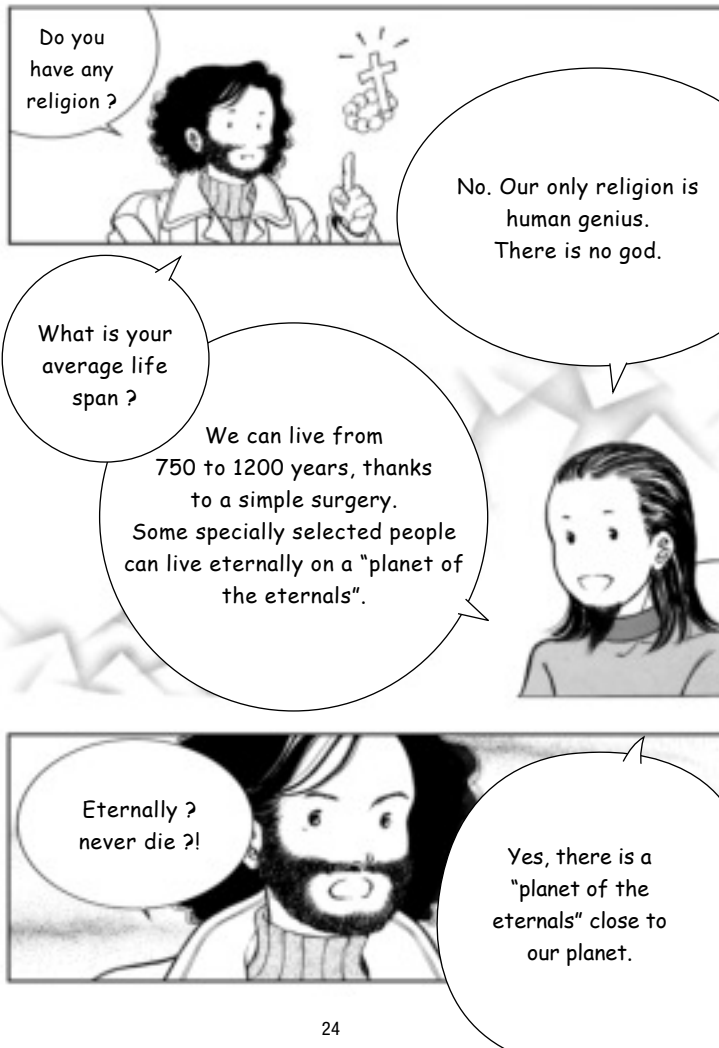

What about
the problem of
overpopulation ?

Your population
will not increase
if you make a law
that one woman
can only have 2
children.

The secret of eternity

We surgically take a small sample of our body, when our brain and body are at their best, and keep it.

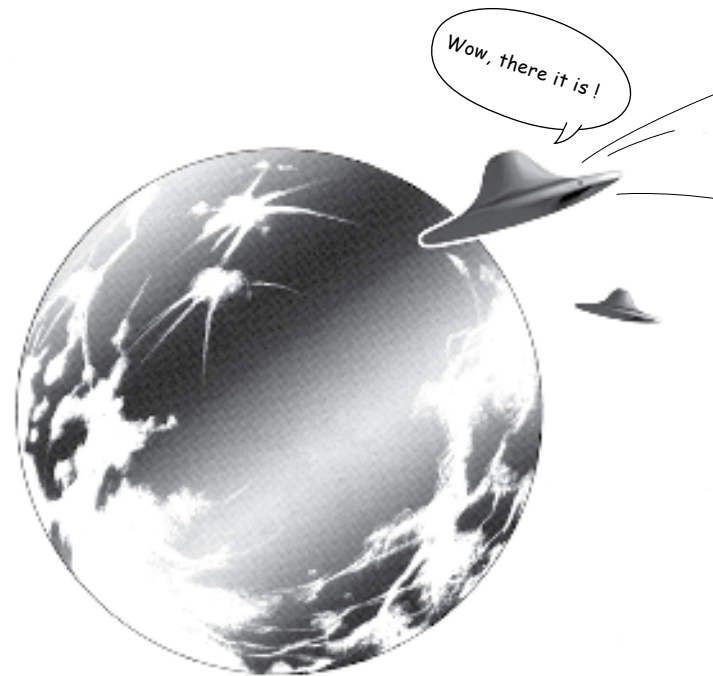

Then, when we die, we perfectly recreate our original body from the cells that were stored. The same body as before, for this individual, also means the same memories and personality as before.

But the new body is composed of new elements, so it can live another 1000 years. By repeating this we can achieve eternal life.

Extraterrestrials took me to their planet

Experiences on the planet which has a 25000 year
advanced civilization

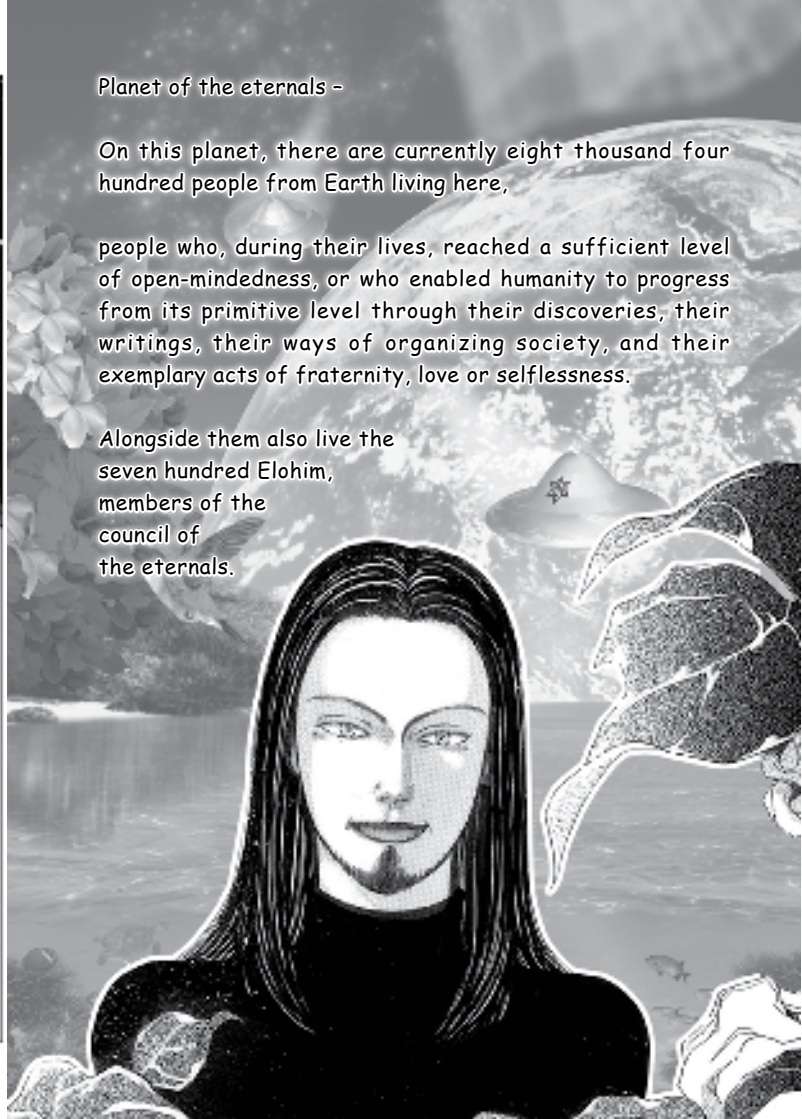

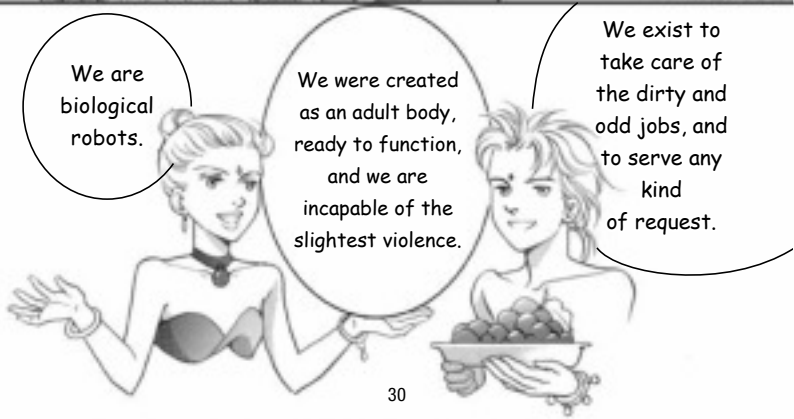

Planet of the eternal -

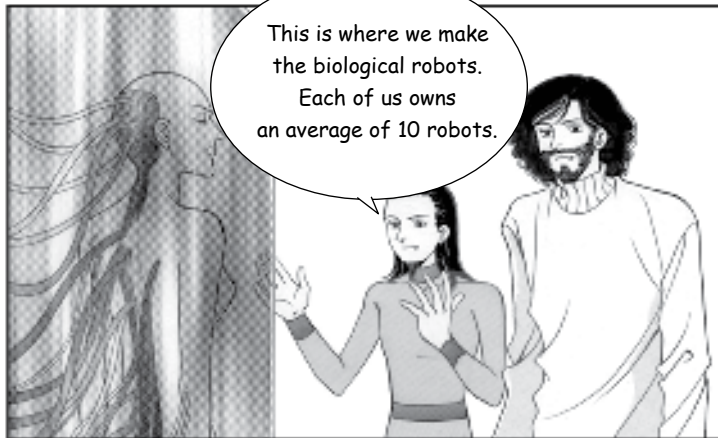

On this planet, there are currently eight thousand four hundred people from Earth living here,

people who, during their lives, reached a sufficient level of open-mindedness, or who enabled humanity to progress from its primitive level through their discoveries, their writings, their ways of organizing society, and their exemplary acts of fraternity, love or selflessness.

Alongside them also live the seven hundred Elohim, members of the council of the eternal.

This is where we make
the biological robots.
Each of us owns
an average of 10 robots.

Rael !
This machine generating the
biological robots gives them
the exact physical appearance
and specialization you desire.

Also, when I wore
this special helmet and
imagined a melody, I could
immediately hear wonderful
music corresponding exactly
to what I was thinking
about ;

and when I sat in front
of a screen and imagined
certain scenes, these
scenes at once became
visible on the screen.

Many people here
use this equipment
to create wonderful
works of art.

Mankind on Earth is now finally living
in the age of "Apocalypse".
"Apocalypse" means "the time when everything will
be understandable scientifically".
You only have to look around you to see that the
time of Apocalypse has indeed come.

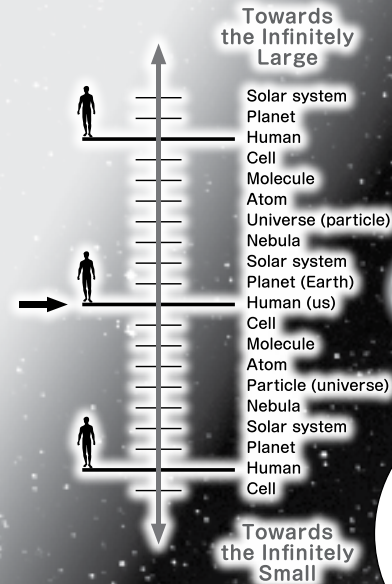

Moving towards eternal youth and
immortality,
thanks to stem cells

Creating artificial life,
through genetic
engineering

Controlling matter
at the atomic level, using
nanotechnology

Advances in communication
technologies, such as fiber
optics and the internet

Achievements towards
space travel

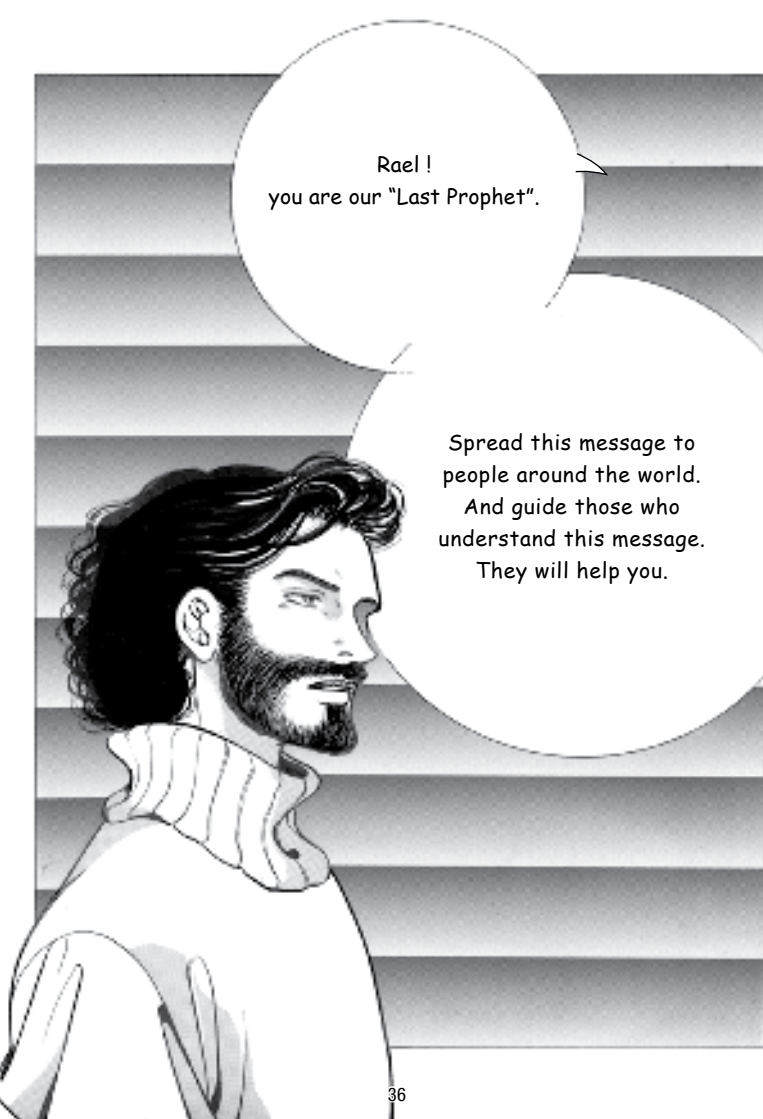

The universe is infinite,
it has no center.
So there is no god or soul, nor
is there any heaven or hell.
Only infinity exists.

Our body is itself a small universe; the particles
of the atoms in each one of our cells are the
stars and planets in this "body" universe; and on
those planets, there are tiny intelligent living beings.

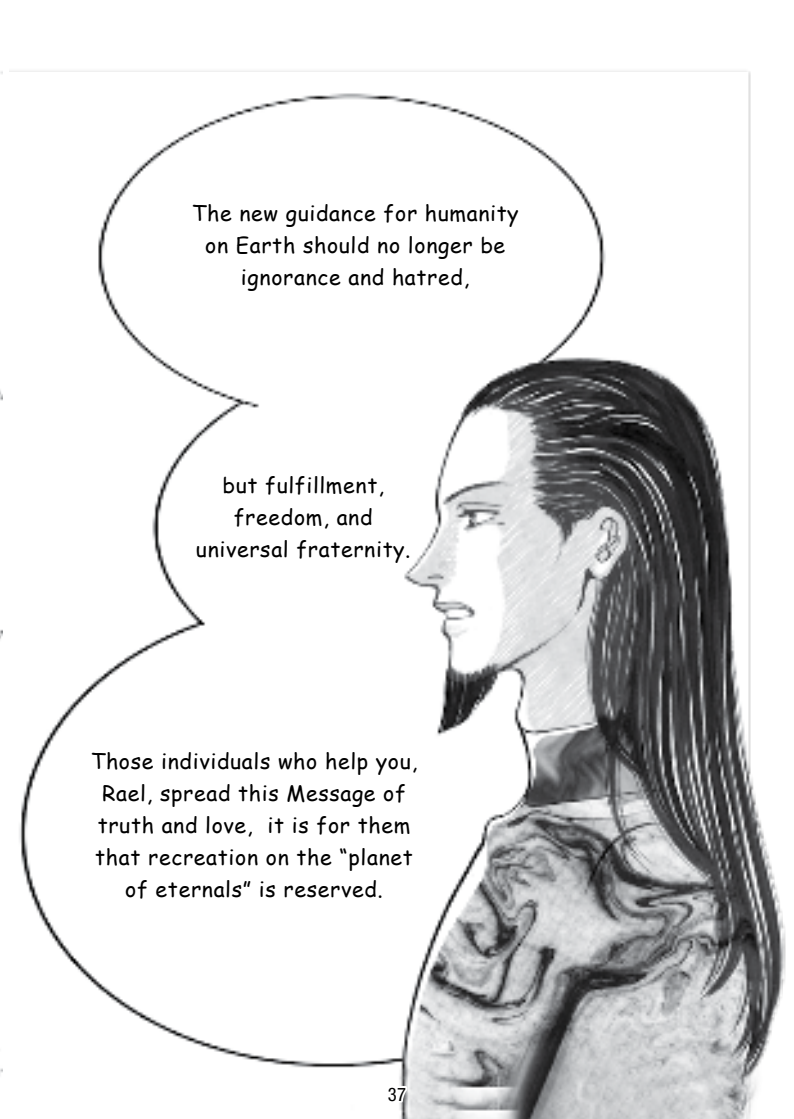

In the same way, our universe is part of a gigantic
being; we are living on the Earth which is a particle of
one of the atoms composing that gigantic living being.
Also, this gigantic being is in its turn only part of an
atom of another even larger being.

This cycle of infinity, small and large, continues
infinitely.

Rael !
you are our "Last Prophet".

Spread this message to
people around the world.
And guide those who
understand this message.
They will help you.

The new guidance for humanity
on Earth should no longer be
ignorance and hatred,

but fulfillment,
freedom, and
universal fraternity.

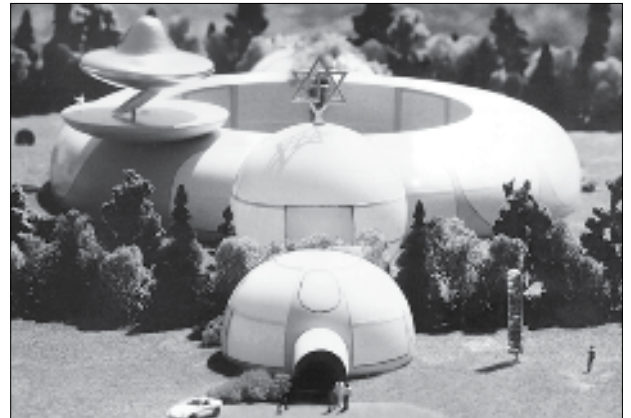

Those individuals who help you,
Rael, spread this Message of
truth and love, it is for them
that recreation on the "planet
of eternal" is reserved.

The 3 original French books which compose the "message".
The first editions were published in 1974, 1977 and 1979.

Rael in 1979. The emblem seen behind is the same as one which was engraved on the side of the Elohim's spaceship. It's the symbol of infinity. The Swastika and the Star of David, made of two superimposed triangles, mean "That which is above is like that which is below, and everything is cyclic".

A scale model of the embassy, an Elohim spaceship landed on the rooftop terrace.

Copyright © of Colin Andrews, www.CropCircleInfo.com

According to Rael, some of the crop circles are made by the Elohim to encourage the human race to build their embassy. The crop circle in this photo appeared at Cheesefoot Head in Hampshire England in August 1990, and is very similar to the architects' drawing of the embassy.

Paradism

For a world without work

For a world without money

For a world where we can do what we want

For a world with no hunger or war

Paradism is one of the many ideas which are being promoted by the Raelian Movement.

If we use our science and technology available today, it is possible to free humanity from the slavery of labor and money.

paradism.org

*For those who understand the message
from the Elohim and agree with it,*

your next step would be to do the

"Transmission".

***This is a very important event during which
your cellular plan is transmitted to our
creators so you can be recreated after
your death.***

The transmission is also the event with which, during our lifetime, we recognize the Elohim as our creators, by transmitting our cellular plan (our individual DNA sequence) to the computer of the Elohim our creators.

It takes place 4 times a year (First Sunday of April, August 6th, October 7th, and December 13th).

The transmission is available to those who are over 15 years of age, who have read "The message from the creators" or this Manga, recognize the Elohim as our creators and Rael as the last prophet, and understand that there is no god or soul.

The Raelian movement

On December 13th 1973, Rael, then a journalist at a sports car magazine, encountered extraterrestrials named "Elohim" at the Puy de Lassolas volcano near Clermont-Ferrand in France.

The Elohim gave Rael "The book which tells the Truth", a message about the origin of human life, its present and future, and then asked him to spread this message all over the world and build an embassy where the Elohim could return to Earth officially and meet with us.

Two years later, on October 7th 1975, Rael met the Elohim again, and was invited to their "planet of eternal". He experienced their amazing and overwhelming 25000 year advanced science and technology.

It was an unbelievably beautiful place, like a paradise.

At the end of 1975, Rael founded the "International Raelian movement" (IRM) in Geneva, Switzerland, in order to build the embassy which was requested by the Elohim.

He appeared on national TV in France, which created a great sensation all over Europe.

Rael has since traveled all over the world, giving countless press conferences, as well as public conferences and seminars. The international Raelian movement is now established in 104 countries.

The books written by Rael are now translated into 30 languages, and more than 90000 members are active with Rael in order to welcome the "Elohim, creators of humanity".
